BANK OF COLUMBIA MOBILE APP

Logging In

Find the App by searching on either Google Play for Android phones or Apple App Store for the iPhone.

1. Launch the app on your device.
2. Enter your Online Access ID (User ID) & Password.
3. Tap Log In.

Instant Balance

Instant balance is a secure, read-only feature that allows you to see select account balances without logging on to the app. Tap Instant Balance.

Touch ID

Touch ID allows you to log in with a fingerprint. Device must be eligible and you must have saved your fingerprint on the device already. Touch ID setting is found under the MORE tab within the app.
To Log-In after setting up your Touch ID just tap Touch ID and then touch the home button with your fingerprint.

Viewing Account Details

View transaction history & check images for your accounts all within the app just by tapping the account you want to see.
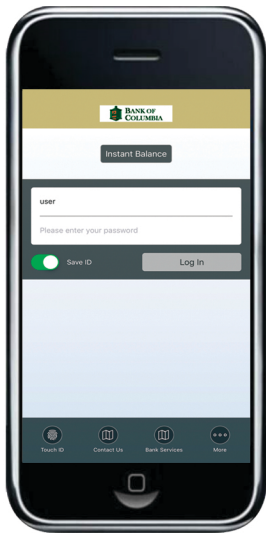

Transferring Funds

The transfer feature allows you to transfer funds by selecting your account and entering an amount. The money moves directly from one account to another.

Alerts from the Mobile App

Personalize alerts on all of your accounts and how you are notified in easy to follow steps within the app.
Select Account Alerts or Security Alerts and set which push notifications you want to receive.
